Hygger CO2

HC043 Professional Aquarium Soil

- ☒ Rich in nutrients
- ☒ Stable and clear water quality
- ☒ Lasting fertilizer
- ☒ Safe for fish & shrimp

PRODUCT OVERVIEW

Selected natural black soil, high-temp calcined. Rich in nutrients for aquatic plants, long-lasting fertility, stable clear water. No synthetic fertilizers, safe for fish & shrimp. Creates a healthy, fertile natural substrate.

INSTRUCTIONS FOR USE

1. Use directly, no rinsing.
2. Creates slightly acidic water – ideal for most aquatic plants.
3. When filling water, use sponge or bag to avoid direct flow on soil.
4. Recommended substrate depth: 6–8 cm for healthy root growth.
5. Add fish/shrimp at least 2 weeks after planting, once water stabilizes.

PRECAUTIONS

- Store in a cool, dry place. Keep away from moisture and direct sunlight.
- Keep out of reach of children to prevent accidental ingestion.
- Yellowish water may occur due to regional water differences – normal. Change water several times. If persists, contact us for support.
