HG245 USER MANUAL

**hygger Aquarium Clean Light Replacement
Bulb 2 Pack(pcs)**

3W

5W

This is a bulb replacement for hygger Sweeper Aquarium Clean Light (HG191-3W/HG191-5W) and hygger Purifying Aquarium Tube Light (HG250-5W)

Please read this manual carefully before use and keep it for future reference; follow the instructions to ensure proper use.

1.PRODUCT FEATURES

Compatible Models: The UV bulb is used in the HG191 and HG250 UV lights. Among them, 3W bulbs can be used to replace HG191-3W bulbs, and 5W bulbs can be used to replace HG191-5W and HG250-5W bulbs.

Quick Replacement: Original bulbs ensure a perfect fit with existing equipment. Just insert the replacement bulb to complete the replacement.

Important Safety Note: This bulb emits short-wave UV radiation with a peak wavelength of 253.7 nm, which is ozone-free. To prevent injury, please avoid direct contact with the light in your eyes when in use.

bulb, used to fix the
bottom.

How to replace the UV light bulb?

Tube Replacement: Operate only when it is necessary to replace the UV light bulb.

Step 1 Remove the UV lamp cover and pull out the old bulb.

Step 2 Put on the replacement white rubber O-ring to secure the new bulb.

Step 3 Insert the bulb into the socket of the lamp holder.

Step 4 Install the external quartz glass sleeve, which is equipped with a bottom rubber ring or a white rubber ring.

Step 5 Ensure that the light tube is securely installed.

Step 6 Reinstall and tighten the light cover.

NOTE: The white rubber ring and the bottom rubber ring of the light tube are essential for securing the ultraviolet light tube and preventing damage, please ensure that these components are not misplaced.

4.ATTENTION

- Ultraviolet radiation may cause harm to human eyes and skin. Do not look directly at the light.
- When cleaning or replacing the UV lamp, please avoid direct exposure of your eyes to the light. This

operation should be carried out in a power-off state or while wearing protective eyewear.

- Before use, please ensure that all interfaces of the lamp are tightly sealed to prevent water from seeping in and causing safety hazards.
- The designed operating temperature range of the UV lamp is 40°F to 95°F (4°C to 35°C). To ensure optimal performance, please keep the ambient temperature within this range.

5.WARNING

1. Make sure the UV light is securely installed before operating it.
2. Read and observe all the important notices on the UV light.
- 3.The UV light is intended FOR HOUSEHOLD USE ONLY.
- 4.SAVE THIS USER MANUAL.
